Countdown

@Humboldt General Hospital

Thumbs Up for HGH!

Last week, an anonymous mailer was sent to households throughout Humboldt County with very negative and erroneous information about Humboldt General Hospital. Needless to say, it was very hurtful to our staff members, board members and volunteers who have worked very hard, not only to pay off the hospital's previous debt but to save enough money to pay for the hospital's current expansion—an addition of more than 30,000 square feet that will allow the HGH team to serve the community in even better ways. Theresa Bell, our Purchasing Manager, came up with a great idea last week to invite our entire staff to meet at the construction site to give a big thumbs up for Humboldt General Hospital. The result was awesome! Shauna Barsanti, our Business Manager, is in the front holding the check that paid off the hospital's \$1.4 million debt. She is surrounded by staff members, board members and volunteers who have done amazing things over the past years to plan and now carry out this expansion. Others, who were not able to stand in for the picture, sent emails denouncing the mailer and pledging their support. If you look close, you also will see City of Winnemucca Mayor DiAn Putnam, several members of local law enforcement as well as some local residents who heard about the photo and wanted to show their support. After the photo, a huge cheer erupted and lots of clapping. What a fun experience!
